EDUCATION

Chulalongkorn University
- B.Eng. in Computer Engineering and Digital Technology (2023 - Present)
- **Related Coursework** : Web Development (Frontend & Backend), Data Analytics, Digital Marketing & Analytics, Machine Learning & Data Science

CERTIFICATION

- **Thailand Olympiad in Informatics (TOI) Camp 2** – Selected Participant, 2022 Focused on algorithms, data structures, and competitive programming.

OBJECTIVE

Computer engineering student with a growing interest in full-stack development. Familiar with web technologies such as HTML, CSS, JavaScript, and backend basics using Node.js and databases. Eager to gain real-world experience and continuously improve through hands-on projects and collaboration.

EXPERIENCES

Frontend Developer Intern | Index Living Mall   May 2024 – July 2024
- Built an internal calendar web app for employees to log their on-site days, remote work, and leave days.
- Helped team members view each other's schedules more clearly, making it easier to plan and coordinate work.
- Developed the frontend based on UX/UI designs provided by the team and suggested several usability improvements.
- Used TypeScript, Next.js, React, Ant Design, and Styled Components to create a clean and responsive user interface.
- The app became part of the team's daily routine and improved communication around work schedules.

Online Job Fair Registration System | University Coursework Project
- Built a basic backend for an Online Job Fair system as part of a university course.
- Implemented user authentication and CRUD operations for booking interview sessions.
- Designed the frontend layout and user flows (not implemented) to simulate a full-stack system.
- Gained hands-on experience with Node.js, Express.js, MongoDB, and fundamental UI design principles.

Hotel Booking System | University Coursework Project
- Collaborated in a 9-person team to develop a hotel booking web app from scratch for a Software Engineering course.
- Co-led UX/UI efforts, designing user interfaces without formal tools—relying on creativity, judgment, and hands-on styling.
- Styled components directly in code, adjusting layout and visuals to ensure a clean and intuitive user experience.
- Strengthened skills in frontend design thinking, teamwork, and building user-centric interfaces under real project constraints.

LEADERSHIP, COMMUNICATION & TECH OUTREACH

Event Organizer | CEDT Innovation Summit 2025   April 2025 – May 2025
- Worked as part of the event planning team to manage the flow of the program and ensure everything stayed on schedule
- Designed and set up an educational booth to present student projects and teaching approaches from the Software Engineering course

Education Camp Organizer | BCOZ Camp 2024 in Kanchanaburi   January 2024
- Led an educational guidance camp for high school students, sharing insights about university life and career paths
- Provided one-on-one mentorship, answering questions and helping students explore future opportunities

SKILLS

- Languages: JavaScript, TypeScript, HTML, CSS, Python, C++
- Frameworks & Libraries: React, Next.js, Node.js, Express
- Tools & Tech: Git, SourceTree, Ant Design, Styled Components
